Pool Video Information Escondido House Burn Operation

KFMB-TV (San Diego CBS affiliate) will be providing 16x9 standard definition pool feed of the burn tomorrow (12/9/2010) from a camera located in the northeast corner of the Vons shopping center property. The distribution point of the feed will be the KFMB satellite truck, which will be parked on the east side of Nutmeg Street, west of the Vons center. The truck operator will be **Scott Hall** and his cell is **(858) 472-3573**. There will not be a satellite uplink. KGTV is providing the distribution box, which will provide analog outputs. Media outlets will need a BNC video cable and XLR audio cable to connect. The box should be available to hook into at around 7:30 a.m. In order to receive the pool feed you will need to be present and hooked into the box. We do not have the capability or manpower to make dubs after the fact.
