Media Contact: Sergeant Scott Roller

Date of Release: 02-07-2020

Time of Release: 04:30 AM

SYNOPSIS:

On February 6, 2020, at 10:21 PM, deputies responded to 10235 Madrid Way, #149, in Spring Valley to assist fire department personnel and paramedics with a possible overdose victim. Upon arrival, deputies observed a male subject, age 36, whom was not breathing and unresponsive. They also found a female subject, age 36, whom appeared to be the victim of multiple stab wounds. As the deputies began CPR on the male, the female began to vomit and pass-out. She claimed that she and the male had both had been drinking alcohol and arguing all day. She claimed they had both ingested Oxycodone. She said the male subject was her boyfriend, and in anger, he stabbed her multiple times with a knife. When fire department personnel and paramedics arrived on scene and continued life-saving measures.

The female victim was transported to an area hospital for treatment of her stab wounds. After life-saving measures failed, the male subject was pronounced deceased. The Medical Examiner (ME) responded to the scene and will investigate to determine the cause of death. Detectives from the Sheriff's Narcotics Task Force also responded to the scene based on the possible use of Fentanyl. Detectives from the Rancho San Diego Station will be conducting further investigation of the stabbing. At this time, we do not believe there are any outstanding suspects.
